ABOUT US

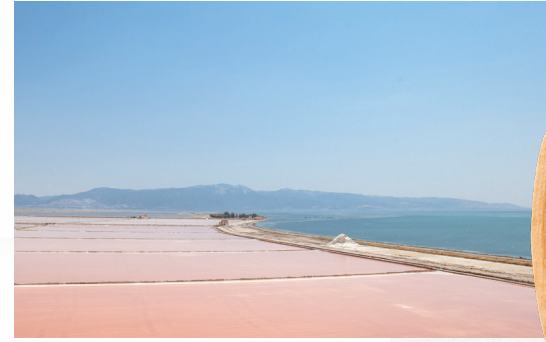

Billur Tuz, as the first refined salt factory of Turkey, has been operating in Izmir since 1964. Billur Tuz provides its raw material from Çamaltı Saltwork Turkey's biggest sea salt farm. Çamaltı Saltwork is located near the Izmir Bird's Paradise, a natural reserve area, along the Aegean Sea Coast.

As being the most reliable and leader brand in salt industry in Turkey, Billur Tuz operates the biggest factory with capacity of 250.000 metric tons per year in its modern facilities and continues to increase its capacity with new investments.

The main focus of Billur Tuz was used to be production of refined table salt, in time, it expanded its investments on production facilities according to market needs, and has widened its portfolio with refined and washing industry salts, health salts and natural grinding salts.

Product quality of Billur Tuz bases on international standards with advanced laboratory and production technologies such as ISO 9001 Quality Management System and ISO 22000 Food Safety Management System. In addition to having Cooking Salt Standard TS 933 and Industrial Salt Standards TS EN 973, Billur Tuz products are also granted with Halal and Kosher Certificates.

Billur Tuz has constantly offered high quality and premium products that contributes value on both health and life since 1964. Products of Billur Tuz are valid in each region of Turkey, besides both Billur branded and private label products have been exported about 80 countries all around the world.

INDUSTRIAL SALT

WHAT IS SALT USED FOR?

NaCl
Sodium Chloride

The Chemical Industry

- Pharmaceuticals
- Water Treatment
- De-icing
- Table salt

Food Industry

**+1000
Uses**

Chlorine

PVC

Constructions

Toys

Disinfectant

Mineral Oils

Ceramics

Soaps & Detergents

Paints

Aluminium & Metals

Dye for Textile

Glass

Pulp & Paper

Caustic Soda

Na

Sodium Compounds

Organics

Soda Ash

USAGE FEATURES

- Non-iodized Food Grade PDV Salts are composed of small granules that allow the product to flow freely and dissolve quickly in water.
- It is used in water purification, animal husbandry, food, and beverage industry.
- High purity level is achieved through crystallization process and the use of pure and uncontaminated saline water.
- It is a product sold for enhancing the flavor and food preservation in food products.
- It does not contain allergenic or GMO ingredients.
- It can be filled up to 1250 kg upon request.

Non - Iodized Food Grade PDV Salt	
Net Weight	Package
10 kg	PE Bag
25 kg	PE Bag
1000 kg*	Big Bag

USAGE FEATURES

- Crystal Salt Food Industrial Salts, used in the food and beverage industry, do not contain allergenic or GMO ingredients.
- Refined Anticaking Free Industrial Salt does not contain anti-caking agents or iodine.
- Thanks to the iodine it contains, the products are suitable for use in dairy and dairy product production, spice blends, and the bakery sector.
- It can be filled up to 1250 kg upon request.

25 kg	PE Bag	1000 kg*	Big Bag
1000 kg*	Big Bag		

USAGE FEATURES

- Dried Solar Salt obtained through evaporation in the sun has a higher purity compared to rock salt.
- It is used in water purification, animal husbandry, food, and beverage industry.
- High purity level is achieved through crystallization process and the use of pure and uncontaminated saline water.
- It is a product sold for enhancing the flavor and food preservation in food products.
- It does not contain allergenic or GMO ingredients.
- The use of tablet salts is recommended for ice formation prevention during winter months.
- It can be filled up to 1250 kg upon request.
- Particle size can be diversified according to demand.

Dried Solar Salt

Product	Grain Size	Net Weight	Package
B01	0,5 mm-1 mm	10 kg	PE Bag
B02	1 mm-1,6 mm	25 kg	PP/PE Bag
B03	1,6 mm-3 mm	1000 kg	Big Bag
B04	3 mm-6,5 mm	Bulk	Bulk

USAGE FEATURES

- Powder salt is a unique type of sodium chloride that has been ground into a powder form to create the smallest and finest granulations of salt crystals.
- With its fine powder crystal size, it provides greater solubility and miscibility compared to standard table salt.
- The solubility of powder salt allows for optimized characteristics such as taste, consistency, and texture in products where it is used.
- Powder salt can be used in places where even distribution of salt is needed, such as yeast foods, doughs, and various sauce preparations.
- Washed solar salt is naturally evaporated solar salt that has been washed and rinsed to remove impurities and sediments.
- It is preferred in various industrial applications, including water treatment and chemical industries
